Portfolio
Bosila, Mohammadpur, Dhaka-1207

Detail-oriented Data Analyst with a Bachelor of Science in Computer Science and Engineering and over 2 years of hands-on experience in data compilation, MIS reporting, and analytical dashboard development. Skilled in preparing accurate daily, weekly, and monthly reports for management decision-making, auditing large datasets for discrepancies, and coordinating cross-departmentally to ensure timely, error-free data submission. Proficient in Excel, Power BI, SQL, and Python, with a proven track record of transforming raw operational data into actionable business insights.

Work Experience

MEAL ASSOCIATE **APRIL 2026- PRESENT**
GFA CONSULTING GROUP – Dhaka, Bangladesh

- Review raw beneficiary datasets in Microsoft Excel to identify duplicate entries, missing values, and data anomalies across key demographic fields (Name, Address, Mobile Number, Age, Gender, and Marginalization Status).
- Track and compile identified data errors and collaborate directly with the MEAL Officer to cross-check, resolve, and rectify the information.
- Manually input and register finalized, error-free beneficiary data into the Knowledge and Information Management System (KIMS) software, ensuring accurate profile creation for each individual.

IT EXECUTIVE **JUNE 2024- OCTOBER 2024**
PIXEL AV & IT SOUTION LTD – Dhaka, Bangladesh

- Automated Excel workflows for inventory tracking, reducing discrepancies i*n spare parts allocation*.
- Managed LED project budgets and clients' structural requirements, utilizing data-driven cost analysis to optimize resource allocation and project profitability.

OPERATIONS ASSOCIATE (COURIER OPERATIONS) **OCTOBER 2023- MAY 2024**
PATHAO LIMITED – Dhaka, Bangladesh

- Optimized delivery routes by assessing hub performance data, driving a 15% reduction in late deliveries.
- Automated daily Excel tracking for 200+ transactions, reducing payment discrepancies by 20%.
- Built dynamic KPI dashboards (on-time delivery, hub efficiency) using pivot tables, saving over 5 hours of manual reporting weekly.

Publication

"An Improved Heart Disease Prediction Using Stacked Ensemble Method"
Published in Springer (2022) | DOI: 10.1007/978-3-031-34619-4_8

- Proved the clear superiority of Stacked Ensemble Methods over single algorithms, achieving higher precision in heart disease forecasting.
- Identified critical clinical risk factors (Blood Pressure, Cholesterol, Max Heart Rate) as the strongest early predictors.
- Optimized the predictive model framework to drastically reduce 'False Negatives' for high-stakes clinical decision-making.

"HDVis: An Interactive Heart Disease Analysis Through Visualization System."
Published in IEEE (2022) | DOI: 10.1109/ICDSIS55133.2022.9915972

- Discovered distinct demographic patterns proving that heart disease risk severity varies across age groups and genders.
- Simplified multidimensional medical datasets into dynamic visual dashboards for rapid clinical correlation detection.
- Developed the user-centric HDVis system to enhance data-driven decisions for healthcare administration staff.

Skills

Python
Libraries: Pandas, NumPy, matplotlib, BeautifulSoup, os
Power BI
Tools: DAX, Power Query

SQL
Software: SQL Server, MySQL
Tableau

Excel
Tools: Pivot Table, Pivot Chart
Statistical Software
SPSS

Projects

DAILY BREW COFFEE SALES ANALYTICS DASHBOARD – Personal Case Study with Power BI **October 2025**

- Developed a 5-page interactive dashboard analyzing $4.25M revenue to address data overload and gut-based decisions.
- Identified morning sales peaks and recommended strategic staffing adjustments to drive a 15% revenue uplift.

FMCG SALES & PROMOTION PERFORMANCE ANALYSIS– Personal Project with Power BI **August 2025**

- Evaluated store performance and calculated the ROI of promotional strategies across an FMCG business to drive actionable growth.
- Determined that discount-based marketing strategies outperformed other options, maximizing incremental revenue by $171.99M.

B&J BISCUIT BUSINESS ANALYSIS DASHBOARD– Personal Project with Excel **August 2025**

- Designed a dynamic sales dashboard to transform complex revenue distribution and profitability challenges into actionable insights.
- Utilized advanced Pivot Tables and interactive filters to systematically analyze profit margins, sales trends, and consumer demographics.

Certifications

DATA ANALYST JOB READY BOOTCAMP – Data Solution 360 – Dhaka, Bangladesh **January 2026**

- 6-month intensive program covering advanced data analysis, data cleaning, visualization, and process optimization
- Tools: Excel, SQL, Power BI, Python, Statistics

Education

BSC IN COMPUTER SCIENCE AND ENGINEERING – City University – Dhaka, Bangladesh **April 2022**
CGPA: 3.42 out of 4.00

HSC – Concentration: Science – Safa Degree College, Mathbaria, Pirojpur, Bangladesh **2015**
GPA: 4.13 out of 5.00
